

About ITM

ITM is a privately owned biotechnology and radiopharmaceutical group of companies dedicated to the development, production and global supply of targeted diagnostic and therapeutic radiopharmaceuticals and radioisotopes for use in cancer treatment. We are developing a proprietary portfolio and growing pipeline of targeted treatments in various stages of clinical development addressing cancers such as neuroendocrine cancers or bone metastases. Our main objectives are to significantly improve treatment outcomes and quality of life for cancer patients through a new generation of Targeted Radionuclide Therapies in Precision Oncology. The headquarters are located in the heart of the research center of the Technical University of Munich (TUM).

We would like to fill the following permanent vacancy in a hybrid working model in Garching as soon as possible

Head of Supply Chain Management (f/m/d)

Your role

Your profile

Overall responsibility for:

- Projects in the areas of inventory and supply management, production planning and scheduling with contract manufacturers, including distribution if applicable
- End-to-end responsibility for the supply chain of clinical and commercial radiopharmaceutical and diagnostic products, including scaling across all clinical phases up to commercial-scale production
- Definition, development, and establishment of global manufacturing and logistics chains for clinical studies (Phase I–IV), in close coordination with relevant departments within the corporate group
- Lead role in negotiating and drafting supply agreements with manufacturers for clinical trial materials and products for commercial demand
- Management, development, and oversight of contract manufacturers and logistics partners, including regular business review meetings
- Functional and disciplinary leadership as well as further development of the Supply Chain Management team
- Steering and implementation of projects to optimize material flow, logistics, and inventory management to improve stock levels
- Initiation of measures to secure production in the event of supply shortages
- Completed degree in business administration or a scientific field with a focus on Supply Chain Management or Logistics, or a comparable qualification
- 10+ years of practical professional experience in a senior supply-chain role and in supplier management, preferably in the pharmaceutical, radiopharmaceutical, or medical technology industry
- Proven track record of building complex global supply-chain organizations and leading multidisciplinary international teams
- Experience in production and logistics planning within a manufacturing company is an advantage
- Strong problem-solving and analytical skills
- Excellent communication and persuasion skills, confident demeanor, assertiveness, and strong negotiation capabilities when dealing with suppliers and manufacturers
- Hands-on mentality combined with an independent and structured working style
- Flexibility, resilience, assertiveness, and a high level of organizational talent
- Knowledge of lean and/or quality management; Six Sigma qualification is an advantage
- Confident use of common MS Office applications (Word, Excel, etc.) as well as SAP S/4HANA or other ERP systems
- Fluent in written and spoken German and English

- Functional contribution and input for development and production projects
- Close interdisciplinary collaboration with responsible departments
- Establishment of KPIs for process evaluation as well as preparation, control, and monitoring of budgets

Our offer

- Exciting challenges in an up-and-coming and fast-growing company with a high degree of creative freedom
- An open working atmosphere in an international corporate culture with short communication channels
- Comprehensive onboarding programme
- Flexible working hours with home office options
- Attractive special payments
- Just a good salary? Not with us! We also offer you Employee participation programme
 - Job bike or subsidised job ticket
 - Above-average contribution to the company pension scheme
 - Individually tailored further training programme (including German and English courses)
 - Health promotion programmes (e.g. EGYM Wellpass, subsidy for local fitness studio, sponsorship of sporting events, various lifestyle coaching sessions)

ITM is an employer that ensures equal opportunities. Qualified applicants are encouraged to apply and will be considered during the selection process regardless of gender, age, national or ethnic origin, religion or belief, disability, sexual orientation, gender identity, or any other characteristic protected under the German General Equal Treatment Act (AGG).

If you are a qualified individual with a disability or are otherwise covered under applicable law and are unable to apply through our online application process, you may request a reasonable accommodation. Please contact career@itm-radiopharma.com.

When you apply, please let us know your earliest possible starting date and your salary expectations. You can submit your CV in German and English in docx or pdf format.
