## About ITM

ITM is a privately owned biotechnology and radiopharmaceutical group of companies dedicated to the development, production and global supply of targeted diagnostic and therapeutic radiopharmaceuticals and radioisotopes for use in cancer treatment. We are developing a proprietary portfolio and growing pipeline of targeted treatments in various stages of clinical development addressing cancers such as neuroendocrine cancers or bone metastases. Our main objectives are to significantly improve treatment outcomes and quality of life for cancer patients through a new generation of Targeted Radionuclide Therapies in Precision Oncology. The headquarters are located in the heart of the research center of the Technical University of Munich (TUM).

We would like to fill the following permanent vacancy in a hybrid working model in Garching as soon as possible

## Head of Purchasing (f/m/d)

### Your role

- Build, develop, and lead a high-performing international procurement team, fostering

### Your profile

- Master's degree in Life Sciences, Business Administration, Supply Chain Management, or a related

collaboration, accountability, and continuous improvement.

- Transform and optimize the purchasing organization by implementing best practices, enhancing operational efficiency, and driving sustainable cost reductions.
- Oversee all day-to-day procurement activities to ensure the timely availability of goods and services required to support business operations and strategic objectives.
- Develop and maintain strategic supplier partnerships, lead complex contract negotiations, and manage framework agreements to maximize value and mitigate risk.
- Drive procurement excellence through the optimization of sourcing processes, policies, and controls while ensuring compliance with internal governance and SOX requirements.
- Partner with internal stakeholders to support long-term planning, procurement strategy, and demand management, ensuring efficient execution and timely delivery of critical products and services.
- Manage supplier and CRO relationships for clinical development activities, ensuring contractual, legal, and regulatory compliance while delivering measurable business results and performance improvements.

field; equivalent professional experience will also be considered.

- More than 10 years of progressive experience in sourcing, procurement, and supplier management, preferably within the pharmaceutical, biotechnology, medical technology, or related industries.
- Proven track record of operating successfully in complex international and matrix organizations, collaborating effectively across functions and geographies.
- Strong expertise in developing and executing both short- and long-term procurement strategies that support business objectives and drive sustainable value creation.
- Solid financial acumen with extensive experience in budget planning, cost management, spend analysis, and delivering measurable savings initiatives.
- Excellent negotiation, communication, stakeholder management, and interpersonal skills, with the ability to influence at all organizational levels.
- Proficiency in SAP S/4HANA and other modern procurement and ERP systems.
- Fluent German and English language skills, both written and spoken.
